

# 2-DAY WORKSHOP SNEAK PEAK

NOVEMBER 3 & 4, 2024

## #1 Workshop Open Source Intelligence (OSINT) Techniques Presented by Ritu Gill

*Explore the most recent OSINT techniques and discover valuable resources for conducting online investigations. This workshop delves into various topics, such as OSINT and pivoting, people investigations, and social media strategies. Additionally, it covers lesser known platforms, techniques for saving online content, and insights into online privacy. Real-life case examples will be presented to provide practical demonstrations of OSINT in action.*

## #2 Workshop Stalking Risk Assessment Using SAM V2 Presented by Dr. Randy Kropp

*The SAM-V2 is a set of structured professional judgment guidelines for assessing and managing the risk of stalking. The SAM-V2 helps you investigate and understand the nature of the stalking that has been committed, the personal characteristics of those who perpetrated the stalking, and the vulnerabilities of victims. This training will be led by one of the developers of the SAM. Its goals are to enhance your understanding of critical issues concerning the risk of stalking and its assessment and to build your foundational skills in the use of the SAM-V2.*
